THE FOLLOWING SERVICE & PARTS ARE INCLUDED

ENGINE WINTERIZATION & MAINTENANCE: (ALL MAKES)

Add fuel stabilizer, change engine oil & filter, change fuel/water separator if applicable, drain water from engine block & manifolds, fill engine block & manifolds with non-toxic antifreeze, spray engine with corrosion inhibitor if necessary, disconnect battery leads, overall inspection of all components including belts, hoses, and fuel lines.

OUTDRIVE SERVICE: (VOLVO & MERCRUISER)

Drain gear case, inspect fluid for impurities, re-fill gear oil in outdrive, lube where necessary without removing outdrive, overall inspection.

INBOARD TRANSMISSION SERVICE: (PCM & INDMAR)

Change transmission fluid, inspect fluid for impurities, check seals for leaks, overall inspection.

PLEASE NOTE:

- * Please leave fuel tank ½ to ¾ full to prevent condensation, we do not sell gas.
- * Boats kept in salt water and stored at CE are required to have outdrive removed and serviced at additional cost.
- * Boats kept in salt water and not stored at CE are recommended to have outdrive removed and serviced.
- * Winterization does not include spring commissioning.
