**Sailfish Boats:
Quality
Dependability
Value**

For over a decade, tournament and weekend fishermen have come to rely on Sailfish fishing boats for their strength, stability, and overall quality. The low maintenance premium gel coat interior finish, and stainless steel marine hardware means less work at the end of a long day on the water. Using top quality, fiberglass material installed by skilled craftsmen, all boats are constructed one at a time with strict attention to laminate thickness, material placement, and quality.

Sailfish boats are built for the rigorous duty required of an offshore boat, where dependability is a must. Our unique tri-layer transom construction insures the strongest transom available, an area that absorbs the most punishment, and is built from what we believe to be the

finest materials available for this purpose.

All Sailfish boats use only stainless steel marine gauge hardware to assure long life in the harsh saltwater environment. Where possible, all hardware and fittings are through bolted and backed up by stainless steel backing plates, and secured by nyloc stainless lock nuts.

Marine fuel tanks are used throughout the Sailfish product line, and fuel capacities are maximized for long runs between fill ups.

All upholstery is of marine grade vinyl, and most cushions are easily removable for storage and cleaning.

Teleflex steering is used in all models, and whether mechanical or hydraulic, is of anti feedback design to help eliminate unwanted

torque, and fatigue for the captain. This feature allows for easier operation.

Rod holders abound on all Sailfish models, and every boat from 15 to 28 feet has them installed at the factory for the most efficient use of space possible, while still allowing for out of the way storage.

The 186 Center console combines exceptional styling with more standard features than any boat in its class. Locking storage, raw water wash down, hanging anchor storage, multifunction console, insulated fish boxes, and raw water live well are just some of the features standard on the 186. Compare the competition, and you'll see why the Sailfish 186 is the best value in America.

160 Pro Flats

The 160 & 180 pro flats by Sailfish, offer top shallow water performance, huge live wells and great fishability. Both models feature shallow draft hulls and strong high speed performance with smaller horsepowers. The large front and rear casting decks work especially well for cast netting or fishing, and feature snag free appointments to keep your equipment in action. With abundant storage for gear and fish, the Sailfish Pro Flats Boats are ready for serious action.

The 231 and 246 center consoles (the 231 offers a cut transom, the 246 has a full transom with bracket) are designed for serious offshore work. Both models will accommodate single or twin outboards and the 246 is available in I.O. also. With standard in-console bunk and porta potti, the comfort and storage possibilities are abundant. Standard equipment includes raw water wash down, hydraulic steering, multiple rod holders and insulated fish boxes. Raw water live well and many more great Sailfish standard features with many popular options are available through your authorized Sailfish dealer.

Our most popular Walk Around, the 246, is as versatile as it is practical. Available in outboard and I.O. versions with standard equipment such as Marine head, Galley with ice box, sink and stove and the largest cabin in its class, the 246 WAC offers all the convenience of home with serious fishing features above the deck. These features include raw water live well and washdown, multiple rod holders, insulated fish boxes, deluxe captains chairs, bow pulpit with anchor roller, and loads of fish room.

SAILFISH

"Let's go fishing" is what the 265 and 285 Sailfish Center consoles cry out. (The 265 is the cut transom version. The 285 has a full transom with bracket.) Loaded with big water fishing features, the 265 and 285 offer big water performance with a dry deep vee ride and exceptional speed capabilities. Rated to 500 horsepower, both models will handle twin outboards but perform amazingly well with big V6 singles. Abundant fuel capacity, top notch live wells, multiple rod holders, hydraulic steering, in console bunk and porta potti make the 265 and 285 the offshore boat of choice for both the tournament angler and serious weekend fisherman.

SAILFISH

Our largest Walk Around, the 285 WAC, fishes and cruises equally well. With deluxe cabin appointments such as washable cushions, galley with sink, stove and ice box standard, and pump out marine head, the 285 is the perfect weekender that's designed for serious fishing as well. Standard live well, fish boxes, multiple rod holders, and tons of fishing room make the 285 WAC as practical as it is comfortable. Available in outboard and I.O. configuration, as well as diesel I.O., the 285 WAC is a complete package for the serious boater.
