# S A I L F I S H B O A T S

**Thank You for taking the time to look at our boats.**

**What are you *really* looking for? QUALITY, VALUE, GOOD LOOKS, GOOD RIDE, NICE FEATURES . . . The answer is . . . ALL OF THE ABOVE!**

**SAILFISH** offers what we believe to be some of the BEST VALUES in the Marine Industry today. To use an old cliché, we really do build ‘em “One Boat At A Time.” Unlike the big conglomerate manufacturers, our dedicated people can afford to take the time and trouble to ensure that every new **SAILFISH** is built above and beyond the average standard of quality.

Judge for yourself, Our “*Fit and Finish*” and “*Attention to Detail*” are of standards usually found on only larger, more expensive craft.

The quality begins right here . . . Our materials, Our styling, Our people, Our attitude.

And, **SAILFISH BOATS** are factory installed with YAMAHA Outboards (another BENCHMARK of QUALITY)  
Details on the many features found on YAMAHA products are shown throughout this catalog.

**SAILFISH BOATS** are manufactured exclusively by SEMINOLE MARINE, INC.  
2501 Milestone Industrial Park • P.O. Box 899 • Cairo, Georgia 31728, USA  
Tel: (912) 377-2125 • Fax (912) 377-1855

**INTERNATIONAL SALES OFFICE**  
3 High Close, Sturminster Marshall, Wimborne, Dorset BH21 4BE, England  
Tel: (44) 1258 857 554 • Fax (44) 1258 857 764

[www.sailfishboats.com](http://www.sailfishboats.com)

**THE PROCESS BEGINS ...** after the mold is prepped and waxed, a high gloss gelcoat is applied inside a climate controlled environment. This is then followed by a layer of fiberglass mat and resin that is painstakingly hand rolled to form a permanent bond with the gelcoat. This process will ensure true lamination and eliminate air pockets in tight radius areas and corners, and plays a key role in the overall quality of the boat.

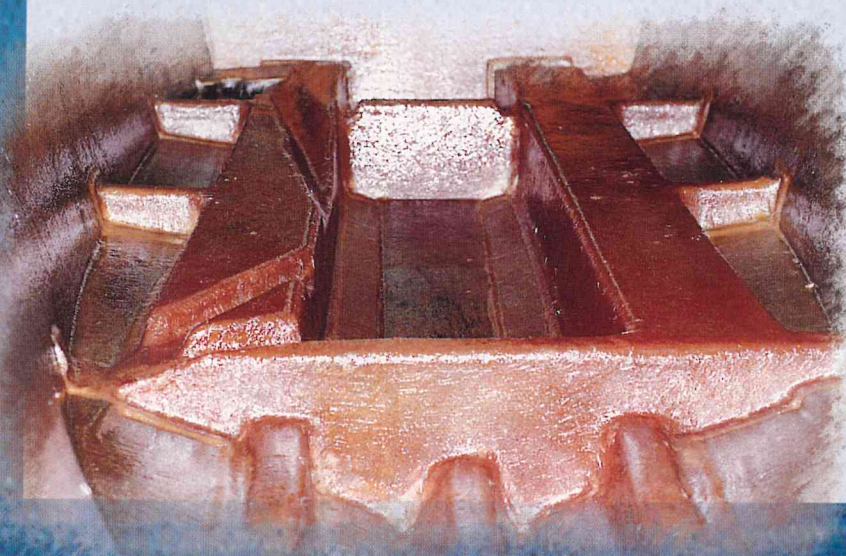

**FROM THIS POINT,** the boat is hand laminated using a combination of woven roving and multi directional fiberglass fabrics, together with Coremat and Polypro rigid foam. This foam is injected into our fiberglass stringer system and allows excellent load distribution across the surface of the hull. The foam also provides excellent insulating qualities while exceeding all U.S. Coast Guard requirements for flotation.

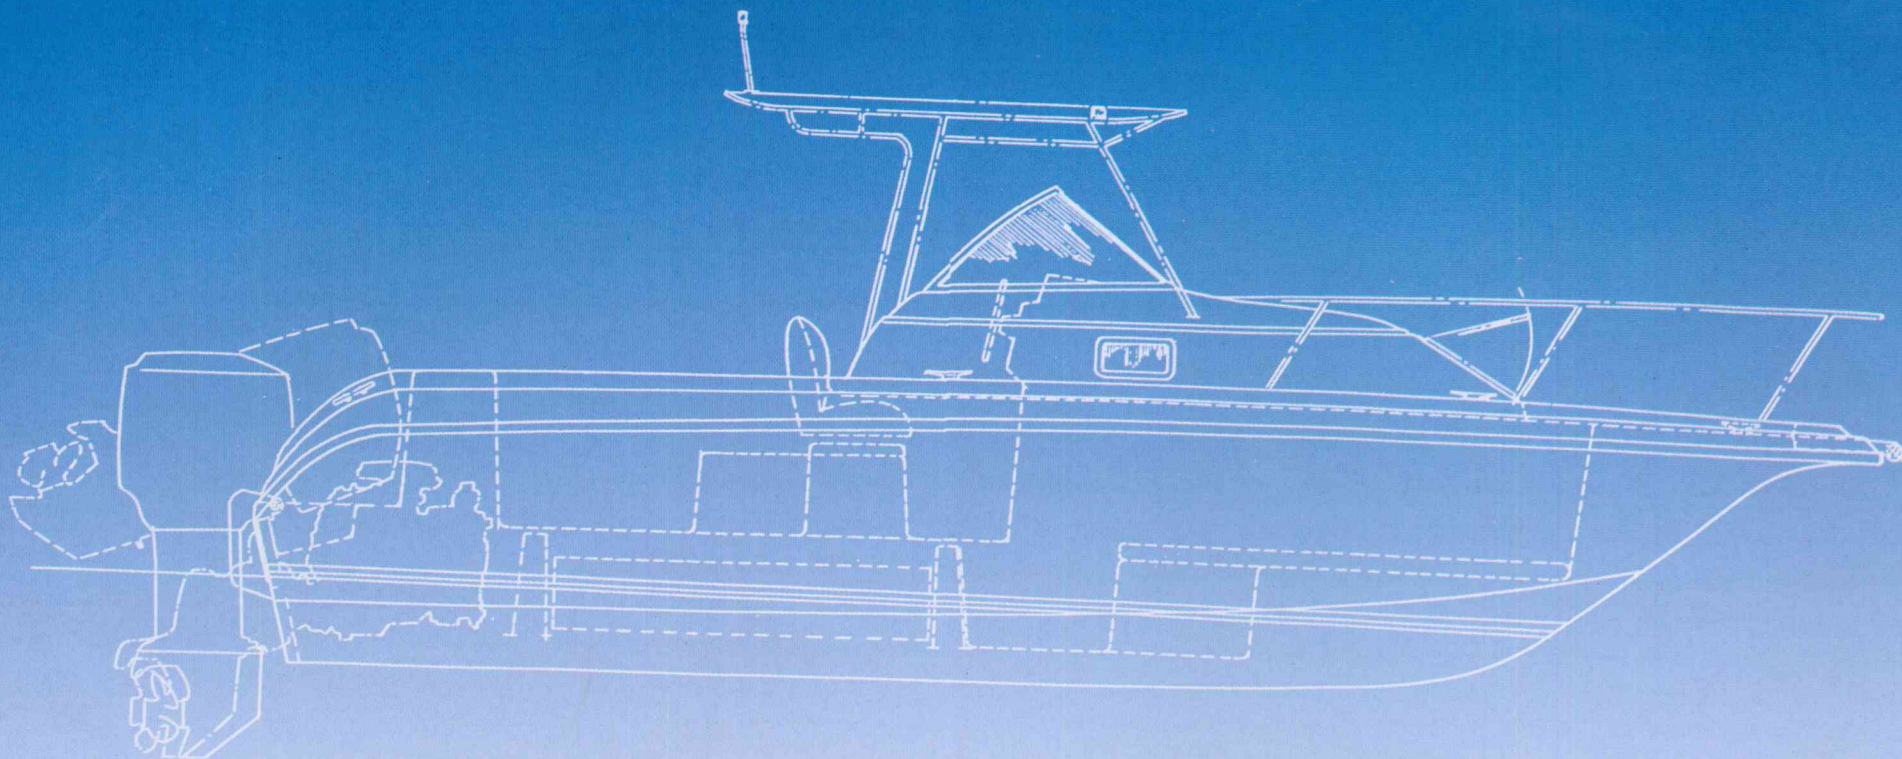

**THE FIBERGLASS STRINGER SYSTEM** provides not only a very rigid hull, but acts as a subfloor for the one piece, deck/cockpit liner to sit on. This method of construction provides a very strong and durable product while keeping affordability in check.

All **SAILFISH** models utilize a "Foam Cored" transom, which eliminates the wood and any potential for rot inside the laminate. This closed cell foam is also used to core areas of the deck to minimize flex in high stress areas.

The finishing touch to any new **SAILFISH** Boat is the installation of a **YAMAHA** Outboard. **YAMAHA's** are used exclusively throughout the **SAILFISH** line.

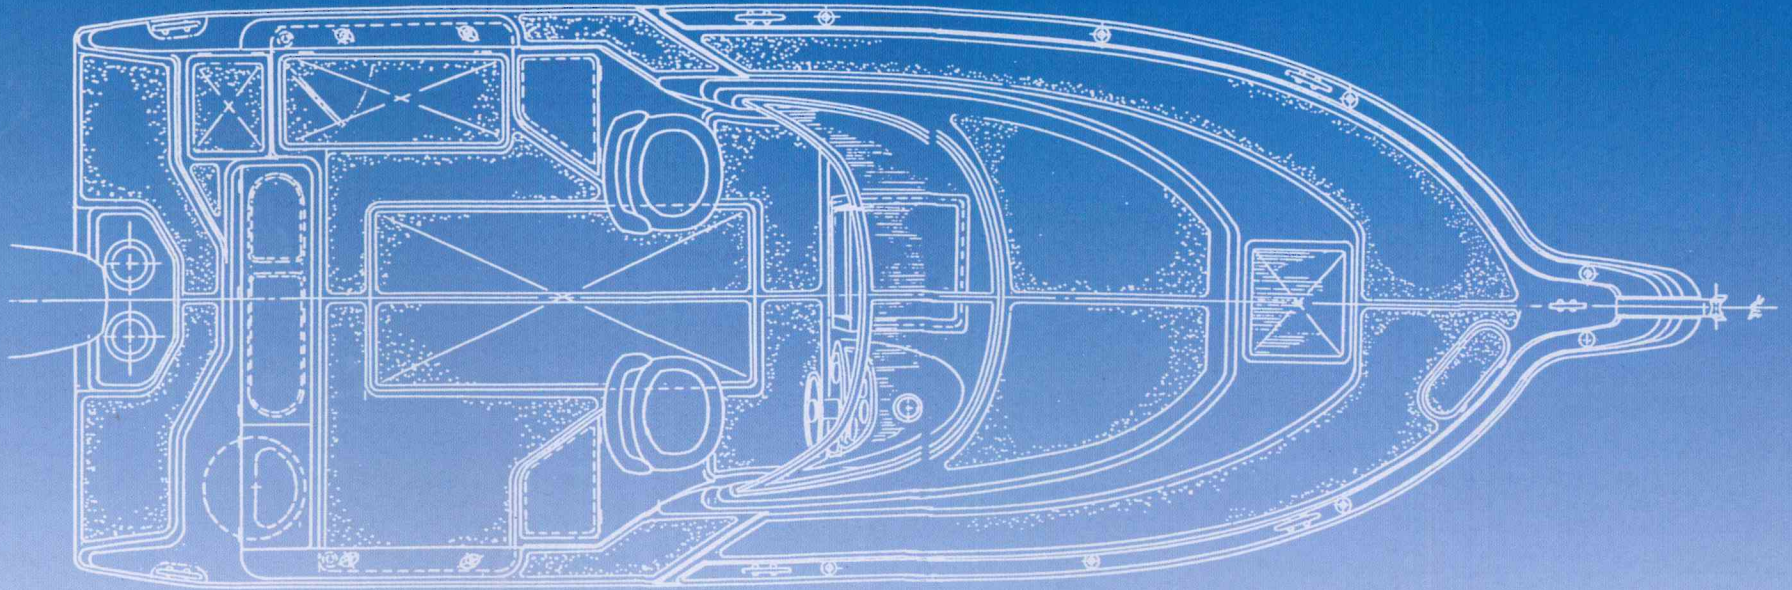

# Coming

# SAILFISH 234 Walk Around Cabin

# Soon!

Our gelcoat is premium quality which means a quality finish with a high luster

Poly lids make great cutting boards for bait preparation

Factory installed with dependable **YAMAHA** outboards

Fishboxes are gelcoated & feature molded fiberglass lids

All rails & hardware are stainless steel, tig welded, & thru bolted

**YAMAHA MULTI-CHARGE MONITORING,** automatically isolates the starting battery. Upon starting, both batteries are recharged automatically, thus no battery switch is necessary.

Sailfish Boats shares a passion for boating and fishing with you, our customer. In 1998, Sailfish Boats became a sponsor of P.D.M. Racing, of Indianapolis, Indiana. P.D.M. competes in the INDY Racing League, running car #18, driven by Steve Knapp. Steve was voted *Rookie of the Year* at the Indianapolis 500 in 1998 and we look forward to good things in this year's series. All of the Indy Racing League's events are televised, with the main event, the Indianapolis 500, the largest spectator event in sports dominating the month of May. We invite you to share our motor sports adventure, an American tradition, and look forward to seeing you on the water and the track.
