

SALTWATER[®]

**DEMAND
THE DIFFERENCE**

A photograph of a person in a white Sailfish boat on blue water. The boat is moving from left to right, leaving a white wake. The person is wearing a blue shirt and is looking towards the right. The background is a vast expanse of blue water under a clear sky.

Sailfish Boats – Fishing Focused and Family Friendly.

For over 25 years, Sailfish has provided the saltwater enthusiast with a full line-up of reliable, stylish, and user friendly boats capable of withstanding the rigors of the inshore and offshore environments.

DEMAND THE DIFFERENCE is more than just a slogan; it's a strategy to exceed customer's expectations. With a CSI rating always in the top 10 percent, and winner of the NMMA CSI Award 5 years in a row, customer satisfaction is a hallmark of Sailfish ownership.

At its core, Sailfish is a fishing boat – designed by anglers for anglers – loaded with more standard equipment for fishing enthusiasts than any other boat on the water. Multiple rod holders in front and rear, insulated fish boxes, and built-in tackle storage

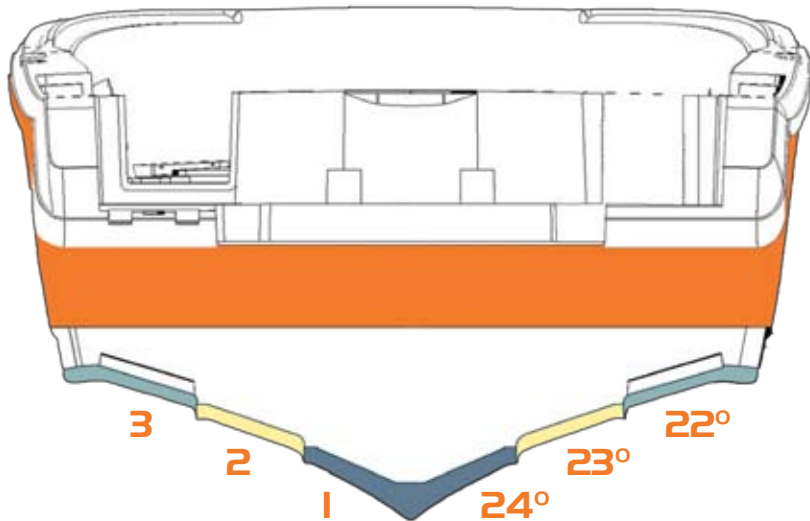

are just some of the fishing friendly features that you'll find on every Sailfish boat.

Still, anglers do not live by fishing alone, and for that reason a Sailfish is designed to be a hard-core tournament fishing boat one day and a versatile family fun boat the next day. With comfortable full bow seating, stow away tables, abundant storage space and a retractable ski tow bar, your Sailfish provides for an exciting family day on the water.

With a reputation for quality and a history of innovation, Sailfish continues to be one of the premier saltwater fishing boats on the market and the best overall value. When it comes to your boating investment, shouldn't you **DEMAND THE DIFFERENCE?**

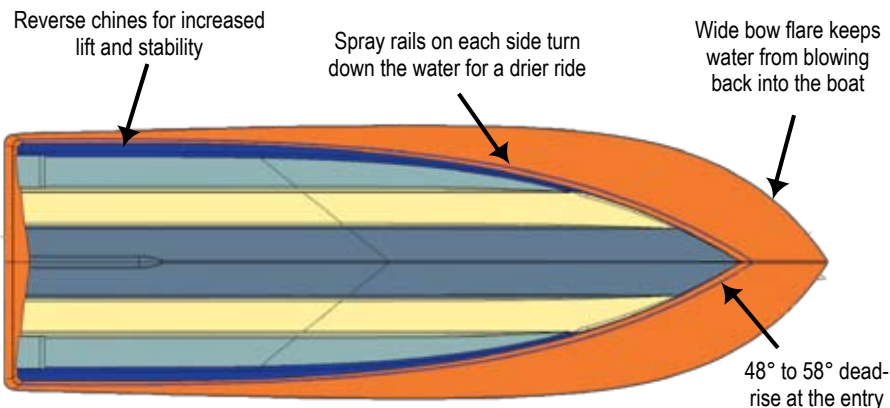

Exclusive VDS Hull Design

Only Sailfish boats feature the exclusive Variable Deadrise Stepped Hull – that improves lift and stability giving Sailfish Boats a smooth ride for all day enjoyment.

Three Hulls in One:

- The first hull cuts the water.
- The second hull combined with turn down strakes creates lift.
- The third hull creates stability.

Demand The

Intelligent Ergonomic Design

The fact that Sailfish Boats seem to just “work” better is no accident. From the ergonomic layout of the helm and console to the deep gunwales and wide walkways from front to rear, every inch of every Sailfish model is planned and thought through for maximum utilization of available space. From strategic seat heights and raised footrests to strategically placed controls and instrumentation, everything is located to provide maximum ease of operation. That’s a “DIFFERENCE” you can feel every time you get on board.

Quality Construction – Built To Last!

Each Sailfish is quality built using only the best materials and proven manufacturing techniques – from start to finish there are no shortcuts taken in the manufacturing process. Kevlar® & carbon fiber reinforcements are added for durability, and the entire stringer system is foam-filled for added safety. Many standard features – such as rod holders, live wells and tackle storage compartments are molded directly into the boat for greater durability and ease of use. Our exclusive raised-dot, non-skid surfaces make for easier cleaning and maintenance – without back-breaking scrubbing on your hands and knees. All these “DIFFERENCES” are starting to add up.

100% Yamaha PowerMatched™ Components

All Sailfish boats are equipped standard with powerful, fuel-efficient Yamaha outboard motors and feature genuine Yamaha PowerMatched™ rigging components as standard equipment. On all models twenty-one feet and up, this feature extends rigging component warranties for a full three years. Compatibility means dependability – another Sailfish “DIFFERENCE”.

Difference

Unmatched Fit & Finish

It's the little things that make the difference between a good boat and a great boat. All Sailfish boats are finished using the best available gelcoats, masterfully applied and polished to a bright shine. All hinges and deck lids are recessed into the mounting surface leaving nothing protruding to stub your toe or cut your feet when barefoot. Our quality control is second to none; each Sailfish boat is painstakingly examined for flaws and imperfections before it leaves the plant – this attention to detail is another “DIFFERENCE” that separates Sailfish from other boat builders.

There Is Simply No Safer Boat On The Water.

From the 220 to the 320, Sailfish models offer the greatest cockpit depth in the industry, keeping water out and people in. Sailfish boats also feature the largest recessed, self-bailing cockpit drains in their class, allowing the maximum amount of water to exit the deck providing an extra measure of safety. Our standard strategically placed bow rails allow users to lower their center of gravity and better maintain balance in rough seas. An integrated rear telescoping ladder is standard on all 22 to 32 foot Sailfish models – this allows for easy access outside the boat – now that's a “DIFFERENCE” that can save a life.

320 CC

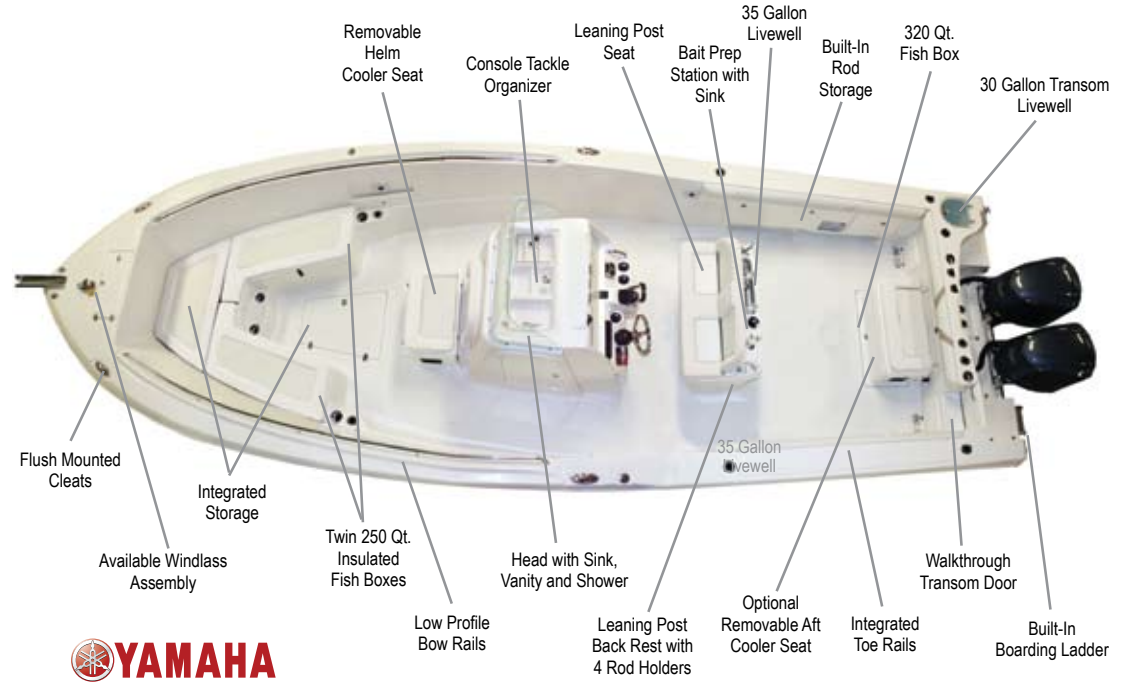

Serious offshore capability and dazzling style make the Sailfish 320CC the best performing big water boat we have brought to market. Our VDS hull design is the softest riding, driest hull in Sailfish history and the multiple deadrise, variable lift plane running surface, makes the 320CC both responsive, and extremely agile for a boat this size. But beyond the standards lies the real heart of Sailfish design, function, comfort, and practical ergonomics. Look over other brands in this size range, we think you'll agree that the Sailfish 320CC is the best of the best, and represents the clear choice in offshore fishing boats available at any price.
