

PRACTICAL, PURPOSEFUL, POWERFUL

SAILFISH BOATS' 252 CENTER CONSOLE IS REDEFINING VERSATILITY ON THE WATER.

Sailfish Boats proudly introduces the all-new 252 Center Console (CC), the next evolution in its legendary center console lineup. Designed for top tier performance, innovation, and comfort, the 252 CC is as versatile as it is refined.

Designed with the modern boater in mind, this center console seamlessly blends fishing functionality with family-friendly features. Thoughtfully engineered details, like flexible layouts, ample storage, and integrated livewells ensure every trip is effortless and enjoyable.

"It truly delivers the best of both worlds. For anglers, it has 20 rod holders, a 25-gallon livewell, large in-floor fish boxes, and insulated bow storage. A 157-gallon fuel tank and dash space for twin 16" MFDs make it

ready for serious fishing," Sailfish Boats CEO and President Rob Parmentier notes in a Behind the Build interview. "For families, you get plush seating, a standard freshwater shower, a 56-quart cooler on a slide, and built-in bow backrests that recess into the bolsters. And no matter your destination, the VDS hull delivers a soft, dry ride."

Like all Sailfish boats, the 252 CC features our innovative Variable Degree Stepped (VDS) hull for a smooth, stable ride in any condition. This three hulls-in-one design optimizes performance and stability, with a deep 24-degree step cutting through water, a 23-degree surface reducing friction for efficiency, and a 22-degree outer step enhancing stability at rest. As a result, passengers enjoy a comfortable ride without the dreaded rocking, even after a long day

on the water.

Standard Specifications Include:

LOA: 25' 0" / 7.62 m
Beam: 8' 10" / 2.69 m
Draft: 19" / 48.3 cm
Weight: 5,800 lb / 2,360.8 kg
Deadrise: Variable 22° – 24°
Fuel Capacity: 157 gal / 594 l
Water Capacity: 12 gal / 45.4 l
Max HP: 400 HP

With two available aft deck configurations, the 252 CC allows boaters to match their unique needs and lifestyle. The standard version features dual 10-gallon livewells beneath a full width bench seat, with convenient port and starboard transom access — perfect for serious anglers and family days alike. The alternative

layout includes a wide, fold-down rear seat and a single 25-gallon livewell to port, as well as a standard oversized port side entry door with integrated ladder, ideal for diving, docking, or quick reboarding after a swim.

Propulsion on the 252 CC is configurable to the buyer's needs, with options ranging from a single 300-400 HP outboard to twin 150 or 200 HP engines from Mercury, Yamaha, or Suzuki. These configurations ensure smooth power delivery, fuel efficiency, and strong offshore performance. The ability to choose between single or twin engines allows boaters to fine-tune their experience, optimizing speed, maneuverability, and fuel economy to best suit their needs.

A full-height glass windshield enclosure and oversized hardtop provide exceptional visibility and protection from the elements, allowing captains to navigate with confidence in any weather. This sleek, durable enclosure minimizes wind resistance while maximizing airflow, ensuring a comfortable helm experience.

The bow boasts spacious seating with comfortable, built-in articulating backrests that easily convert into bolster pads, plus insulated storage below. This inviting space offers a comfortable respite for guests, ready for whatever adventure you throw at the new 252. The 252 CC also features a roomy head compartment forward of

the console, equipped with a standard porta-potti with pump-out, or an optional upgrade to an electric marine toilet for added convenience.

Meticulous details are distributed throughout this vessel that provide solutions to common needs, including a dash console that is able accommodate up to dual 16-inch Garmin or Simrad GPS displays, offering state-of-the-art navigation, sonar, and engine monitoring. These advanced systems provide real-time data and precision charting, making it easier than ever to plot a course, track fish, or monitor fuel efficiency. Ergonomically arranged controls and a user-friendly interface ensure that every function is within easy reach, giving captains complete control at their fingertips.

Plus with Sailfish's proprietary Sailtech Construction, incorporating Kevlar, carbon fiber, quad-axial fiberglass mat, and robust underside of the deck Prisma Beam reinforcements, boaters can count on durability, performance, and safety that stands the test of time. Sailtech Construction unites science, materials and human touch to build lasting structural integrity into every hull.

Whether you're chasing the next trophy fish, heading to the sandbar, or doing both in a single day, the Sailfish 252 CC is designed to exceed every expectation.
